Air Quality Forecast for the UK

Issued by the Met Office

Today: Predominantly Low levels of air pollution are expected across the UK today, however light winds in the south may allow isolated pockets of Moderate to develop near busy roads or urban centres and perhaps again later near Diwali or early Bonfire night celebrations.

Tomorrow: Again predominantly Low air pollution levels are forecast, however winds will be light enough in places to allow isolated pockets of Moderate to develop near Diwali or Bonfire night celebrations.

Outlook: Mostly Low air pollution levels are forecast, however isolated pockets of Moderate may develop near Diwali or Bonfire night celebrations. This is most likely on Friday, with winds expected to be stronger over the weekend.
